Curse Lifting Ritual

In the name of the King and Queen, we invite you to attend a solemn yet hopeful ceremony - the final attempt to lift the curse from our Kingdom. This important moment will take place at midnight on Sunday during the Ball of All Gnomes transitioning into Monday. Before the attempt to remove the curse, the Royal Wizard along with his entourage will circle the room twice, dispelling evil magic and ensuring that the curse has been lifted, freeing our Kingdom. This is a momentous occasion! Let us all await together and remain vigilant. May the power of our dance unite us and break the curse, restoring peace to our Kingdom!

## **SAVING NAVYLAND KINGDOM**

In the name of our Royal Family, I, a humble servant, Hobbit Hopbeat, wish to say thank you to all wonderful creatures of Navyland and you dear guest for your willingness to join us on this adventure. Our common goal is to save our Kingdom from a curse that has been in place for many years now!

To achieve this, we must dance continuously for more than three days during the event and workshop. A larger number of dancing participants will ensure our victory! To help you achieve this, you will receive a magical toolbox filled with artifacts to aid in maintaining continuous dancing without any unnecessary breaks. We also offer you the opportunity to create your personal spell for the Book of Spells and design your unique crest - reflecting your zouk identity.

DJs, instructors, and guests are here for you, offering tips on how to quickly reach a higher level of character development and assist in achieving goals and side quests. Our team of helpers and organizers will ensure your well-being throughout the entire adventure, making your participation unique and exceeding your expectations.

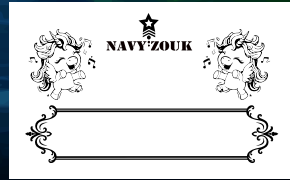

Residents of Navyland, let's wield our weapons and dance continuously, lifting the curse from our Kingdom! Adventure begins now!

## **OUR MISSION**

When we started dancing - zouk community welcomed us very warmly.

Zouk dancers were always smiling at each other and were happy to see new people who started dancing. We would love the standards that we got to know a couple of years ago on European dance floors to be the part of our zouk culture. Schedule of our Navy Zouk festival is aimed mostly for intermediate dancers but of course, dancers of all levels are welcome!

# UNITY BEACONS

Greetings, fellow dancers of the enchanted Zoukroom! I am a humble Dwarfsmith, forger of dreams and spinner of tales in this fantastical realm where dance meets magic. Hearken to my words as they echo through the halls of Navy Zouk, calling forth an invitation to all who seek connection and camaraderie upon the dance floor.

In our quest for harmony and friendship on the dance floor, we find ourselves in need of a beacon - a symbol that unites us beneath one banner, transcending language barriers and fostering understanding among the dancers. And so, I present to you the idea of emblazoning your very essence upon enchanted tokens called Stickers.

These Stickers are not ordinary trinkets but magical markings that bear your unique dance alias - a personalized badge of honor and unity. By donning these symbols, you signal to the world around you who you are, inviting others to address you by name as they join you in the dance.

As the music swells and our feet find their rhythm, may these Stickers serve as a beacon for new friendships and connections. When another dancer spies your alias upon your garment, they shall know who they are addressing, fostering an environment of understanding and camaraderie on the dance floor.

So let us adorn ourselves with these magical markings, Dear Dancers! Let them guide our steps towards harmony and unity as we twirl beneath the starlit sky, creating memories that will last a lifetime. And who knows? Perhaps one day, you too shall be known as a legendary Dancing Dwarf - a symbol of friendship and dance in this enchanted realm!

## CARE & EMPATHY ARTIFACTS

Hail, fellow revelers of dance! I am an Elven bard, weaver of tales and whispers of wisdom upon the winds. Hearken unto my words as they speak of a magical realm where the art of Zouk dances hand-in-hand with enchantment.

In this mystical land, where melodies flow like rivers through the night, there exists an ancient secret known only to those who have walked its hallowed grounds. A symbol, a marking that speaks volumes without uttering a single word - a badge of honor and compassion for our fellow dancers.

These are not ordinary tokens, but enchanted adornments called Artifacts. Each Artifact bears the image of one who has known the sting of pain upon the dance floor - a silent plea to tread with care and empathy. When you don this symbol of understanding, it serves as a beacon for those around you, guiding them towards gentler steps and kinder hearts.

For when another dancer spies this mark upon your garment, they shall know that within lies a heart attuned to the needs of others. They will tread more lightly on the dance floor, ensuring that no one suffers from an unintentional misstep or overzealous embrace. By wearing these Artifacts, we bind ourselves not only in our love for Zouk but also in our commitment to each other's well-being.

So let us adorn ourselves with these magical tokens, a testament to our compassion and respect for one another. As the music swells around us, may it guide our steps as surely as the Artifacts remind us of our shared responsibility to care for those who share this dance with us. In doing so, we create not just a harmonious melody but also a symphony of kindness and understanding that echoes through the halls of Navy Zouk forevermore.

Embrace the magic within you, dear dancers, and let it shine forth as brightly as the stars above. Together, may we make this enchanted realm even more wondrous than before!
